Note for Cover Image: This year's theme "Ko Ngāti Awa te Toki" represents the collective aspirations of Ngāti Awa looking ahead to the year 2050. The Toki symbolises those aspirations which are embodied in the whakatauki 'Ko Ngāti Awa te Toki te tanga tanga i te ra, te ngohengohe i te wai' - Ngāti Awa is the adze whose bindings cannot be loosened in the sun or softened in the rain. The Toki in this image is a ceremonial adze named "Awatope Mānukatūtahi".

Ko Ngāti Awa Te Toki

OUR ASPIRATIONS FOR 2050

Te Rūnanga o Ngāti Awa Chairman's Report

E ngā taonga māpuna, e ngā mana matahiapo tiketike, e ōku whakamīharotanga, whakapupuri i te mākuikui me te whakaiao. Kāhore te ao nei tuarua rawa mai, nāku rawa i whakaehu, nāku rawa i kakekake, te tapu ō Irakewa i Ōpihi rā.

Kei konei ka mihi kairangi ki te mātinitini, ki te hakerekere me te kāpunipunitanga e napu nei i te whenua i tō rātou hinganga, ngā mate tārūrūnui kua riro atu hei terenga waka wairua, arā kua marewa atu ki ngā wai tokitoki, ki ngā hau tāhengihengi ki te aiō mōai rokiroki, ā waiho mā hūpe me roimata hei whakaea.

Whai ake, ko te mihi ki ngā hapū me ngā marae whakahirahira ō Ngāti Awa, "te toki whakatangatanga i te rā" e ngākau nui nei ki te whakaara ake i te hikareia mauri ki te whakarangaranga ō tēnei maramataka ō te tau a "Whiringa-ā-Rangi". Kua tino mahana te whenua, ki te whaiao, ki te Ao mārama;

Eke Tangaroa, eke panuku, whano, whano, haramai te toki, hāumi ē, hui ē, tāiki ē.

LOOKING BACK

The theme for this year's Annual Report is "Ko Ngāti Awa Te Toki – Ngāti Awa is the adze" which reflects the vision of Ngāti Awa to 2050 launched this year.

For many years the Rūnanga has used the symbol of a bird to represent new directions, new initiatives, new horizons and optimism for Ngāti Awa people.

*'He manu hou ahau, he kohanga i rerea'
'I am a new bird that has left the nest'*

Our mission has been to build a strong cultural, social, political and economic base for ngā uri o ngā hapū o Ngāti Awa by:

- Growing the asset base
- Improving whānau, marae, hapū and iwi capability
- Contributing to whānau well-being
- Strengthening Ngāti Awatanga
- Actively exercising kaitiakitanga
- Expanding Ngāti Awa influence

We are guided by our cultural values:

- Tikanga (Spiritual, Mental, Physical, Cultural)
- Whakapapa (Identity)
- Kaitiakitanga (Looking after our inheritance)
- Kotahitanga (Unity)
- Puāwaitanga (Grow and Achieve)
- Taumatatanga (Excellence)
- Manaakitanga (Care for people)
- Whanaungatanga (Maintaining relationships).

These goals and values are reviewed and restated through the new iwi vision.

LOOKING AHEAD

'KO NGĀTI AWA TE TOKI TĒ TANGATANGA I TE RĀ, TĒ NGOHENGOHE I TE WAI'

'Ko Ngāti Awa te Toki', the Ngāti Awa vision to 2050, represents the future aspirations of Ngāti Awa uri, whānau, marae and hapū. Ko Ngāti Awa te Toki is a unifying approach to Ngāti Awa development and continues our iwi focus of working together to achieve success.

The activities such as the Ngāti Awa concert held at Te Whare o Toroa Marae in April this year and the new Te Toki website reflect the positive response to and affirmation of this new direction, particularly amongst our rangatahi. The next generation is always at the forefront of what we do today.

With this in mind, I would like to acknowledge the significant work that has gone into developing this new strategic direction and the participation of many of our tamariki, rangatahi, pakeke and kaumātua in shaping and embracing this important kaupapa.

I conclude this report with the following thoughts:

'Kaua e whakaarohia te mahinga engari ko te otinga'

Think not on the labour, rather reflect on the completion

Thoughts only of the work involved make the task seem longer while focusing on the satisfaction to be derived from completion shortens the time.

'Mā te rere ō te kahuku, ka kitea te ātāhua ō te Āwheto'

It is in the flight of the Monarch Butterfly that one sees the beauty of the Caterpillar

Hopefully this metaphor captures the future we see for ourselves.

CHIEF EXECUTIVE OFFICER'S REPORT

This year saw the most activity undertaken by the Rūnanga since my term as Chief Executive started in 2006. We finally saw some light at the end of the economic recession tunnel. The second half of the year especially saw improved returns from equities and interest rates.

Despite the challenging climate, the level of activity and scope of the projects within the Rūnanga continued unabated. We have achieved successes across a wide range of projects, each of which either directly or indirectly provides benefits for our members.

KO NGĀTI AWA TE TOKI

As noted in the Chairman's Report, 2010 saw the launch of Ko Ngāti Awa te Toki: the Ngāti Awa Vision for 2050. Ko Ngāti Awa te Toki is the result of consultation over the past two years with a wide range of iwi members and sets out clear iwi expectations for the next 40 years. The Rūnanga has developed a strategic approach and framework: Te Ara Poutama o Ngāti Awa, which sets out how Te Rūnanga o Ngāti Awa will work towards Ko Ngāti Awa te Toki over the next five years.

The Ko Ngāti Awa te Toki launch event was held at Te Whare o Toroa Marae and was well attended by iwi members. The event demonstrated the talents of Ngāti Awa uri living here and abroad. Part of the planning for the year ahead is to hold a bi-annual Ngāti Awa festival to celebrate those talents.

FINANCIAL PERFORMANCE

At the Rūnanga level we significantly exceeded revenue targets as a result of securing funding for a range of new projects. This increased the overall expenditure but taking into account the unplanned expenditure on hapū distribution, Charter review, Army Hall purchase and taking on additional staff this resulted in a deficit of \$52,471 (a \$40,000 negative variance to budget once the hapū distribution is taken into account).

REVIEW OF CHARTER

The Rūnanga undertook a full review of the Charter during 2009 and the recommendations were then considered by the iwi by way of consultation, a Special General Meeting, and a postal vote.

The changes were adopted as proposed. The biggest changes were made to the Rūnanga voting system. All hapū will now hold elections at the same time every three years with the first election occurring in October 2010.

RŪNANGA STRUCTURE REVIEW

Alongside the process to review the Charter, the Rūnanga also considered options for improving the efficiency and effectiveness of the board itself. Options included reducing board size, reducing

meeting frequencies, lowering meeting fees or changing the representative structure away from hapū representation. The Rūnanga decided to maintain the status quo.

The Chief Executive and the senior management team are also reviewing management structures with the first changes being made during the 2010 financial year.

COMMUNICATIONS

A new website was launched to support Ko Ngāti Awa te Toki - www.ngatiawa.com.

The Rūnanga also relaunched its own website www.ngatiawa.iwi.nz. The new site allows registered iwi members to change their contact details online. Over the next year more changes will be made to allow members to access information currently held with Ngāti Awa Research and Archives Trust.

Hapū websites (e-nohi) are becoming increasingly popular with our members as they allow members to reconnect with each other and the activities of their marae. It does take time to gather information and update the websites so we encourage members to contribute information and pictures so they can be shared.

ESSENTIAL HOUSING REPAIRS PROGRAMME

The Essential Housing Repairs Programme is funded by Housing New Zealand. The project works to improve homes where health and safety issues severely affect the health of the occupants. Over the year work had been completed on 27 homes with a value of over \$543,550.

GRANTS

279 Te Rūnanga o Ngāti Awa Tertiary Grants and eight Te Rūnanga o Ngāti Awa Scholarships were distributed to tertiary students this year.

MARAE TOOLKIT PROJECT

The Marae Toolkit Project has been running over the past three years. The purpose of the project was to assist hapū and marae to plan their own development. The project resulted in marae toolkits being developed for most hapū and marae of Ngāti Awa; including strategic plans, website, building and insurance assessments and fire safety reports.

BACK TO WORK PROGRAMME

The Rūnanga was approached by the Ministry of Social Development to take on the Ngāti Awa Youth Academy. The programme had previously been successfully run by Te Tohu o te Ora o Ngāti Awa for a number of years. The Rūnanga was able to secure the continuation of the programme in partnership with the Ngāti Awa Tertiary Training Organisation at Poroporo.

The programme provides life skills and preparation for employment for up to 20 rangatahi at a time. This year saw 14 enrolments with eight of these either moving into employment or returning to school with all but one of the remaining students staying with the course through this year.

ENVIRONMENT AND KAITIAKITANGA

The Rūnanga led the successful application to the Health Research Council to fund dioxin bioremediation trials in Whakatāne. The trials are looking at natural ways to reduce and remove PCP and dioxin contamination from soil. The funding builds on and supports the work carried out by SWAP (Sawmill Workers Against Poison).

HOUSING PROJECT

The Rūnanga was successful in securing \$1 million of funding from Housing New Zealand to build housing on Māori land. The project aims to build 40 quality affordable houses in the next 3-4 years for Ngāti Awa and demonstrate the viability of building sustainably on Māori land without the need to sell land. The project will kick off during the 2011 financial year.

WIRELESS PROJECT

In 2009 the Rūnanga and Te Whare Wānanga o Awanuiārangi established a pilot wireless internet network in Whakatāne and Te Teko. The purpose of the pilot was to test the ability of wireless internet technology to deliver better education outcomes for Ngāti Awa communities.

Following the success of the pilot network the Rūnanga approved the construction of a wireless internet network focused on Whakatāne. Extensions have already been made to the network to Opotiki and plans are in place to further extend the network to Edgecumbe and Kawerau.

MĀTAATUA WHARENUI

The Mātaatua Wharenuui project finally received resource consent during 2010. This is the culmination of 15 years of planning and activity to re-establish the Wharenuui. The final design has been amended by the Rūnanga as a result of a review of the project during 2009. This design places more emphasis on the Wharenuui and greater flexibility of use. Construction is due to begin during the latter part of 2010 and will be completed mid 2011. (See article page 38).

STAFF MOVEMENTS

This year saw two staff departures. Kemi Riritahi left the Rūnanga to pursue her education goals at the completion of the Hapū Liaison role. Edwina Merito also completed her fixed term with the Rūnanga. Edwina's major contribution was ensuring the delivery of Ko Ngāti Awa te Toki.

We had one addition to the team; Vicky George (Ngāti Hokopū ki Te Whare o Toroa) took on a project role on the housing project after completing her Te Rūnanga o Ngāti Awa Tertiary Student Internship.

CONCLUSION

The 2009/10 financial year was notable for the level of activity and number of projects in progress and being completed. The ability of the Rūnanga to take on and complete such a wide range of projects is testament to the skills and ability of the Rūnanga governors, management and staff.

I would like to acknowledge the efforts of those groups during the year and look forward to a busy and successful 2011.

TE RŪNANGA O NGĀTI AWA SUMMARY FINANCIAL STATEMENTS

Financial Results

Te Rūnanga o Ngāti Awa and Subsidiaries ("the Rūnanga Group") ordinary trading activities have performed solidly for the year ended 30 June 2010. Ordinary trading activities revenue (excluding one-off and non-cash items) for the year was \$7.4 million compared to \$6.4 million for 2009. Ordinary trading activities expenses of \$6.5 million have increased \$1.2 million (2009: \$5.3 million) due to higher activity. Net surplus after tax from ordinary trading activities (excluding nonrecurring and non-cash revaluations) is \$0.8 million compares to the 2009 surplus of \$0.8 million.

	2010 \$million	2009 \$million
Ordinary Trading Activities Net Profit After Tax	\$0.8	\$0.8
Wharenui Grant Funding	-	\$5.0
Recognition of Carbon Credits	\$3.7	-
Non-Cash Impacts from Revaluations and Movements in Shares	\$0.05	(\$7.7)
Net Surplus/(Deficit) After Tax	\$4.6	(\$1.9)

There have been no significant write downs of investments compared to the \$7.7 million write down last year.

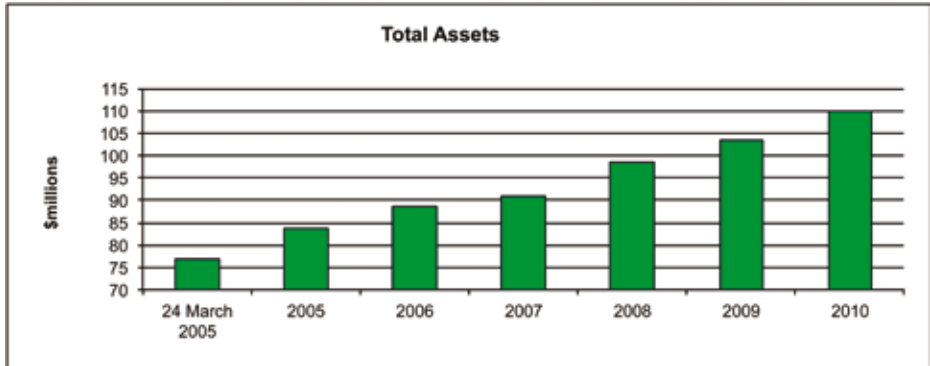

Total assets of \$110 million have increased \$6.6 million from 2009 (\$103.4 million), which is mainly attributable to carbon credits, share & bond investment increases and livestock and plant purchases on the dairy farm (financed from borrowing).

The return on total assets for 2010 is 4% (2009: -2%). Despite this improvement compared to 2009 this is not a strong return given the carbon credit recognition is a one off. However a significant proportion of the \$110 million of assets are not income generating. The table below gives the performance of several other benchmarks to put the Rūnanga Group's performance into context.

Benchmark	Performance year ended 30 June 2010
The New Zealand Super Fund	15.45%
NZX50 Gross	6.29%
NZX All	0.14%
Dow Jones (converted to NZ\$)	8.46%
S&P 500 (converted to NZ\$)	5.09%

Note: Minority interests represents other parties that have a stake in the Group assets and equity. The Group is required to account for the Ngākauroa Dairy Farm and Manu Hou Limited Partnership as 100% owned subsidiaries whereas the Group only owns 51% and 70% respectively. Other Ngāti Awa Trusts hold interests of 49% and 30% respectively in the assets of Ngākauroa and Manu Hou.

The graph below shows asset growth for the Rūnanga Group since receipt of the settlement in 2005.

Te Rūnanga o Ngāti Awa Summary Financial Statements Disclosures, For the Year Ended 30 June 2010

These summary financial statements are for the reporting entity Te Rūnanga o Ngāti Awa ("the Rūnanga") and are prepared in compliance with FRS-43 Summary Financial Statements.

The specific disclosures included in these summary financial statements have been extracted from the full financial statements dated 24 September 2010.

The full financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice (NZ GAAP) applicable for public benefit entities.

The Rūnanga has made an explicit and unreserved statement of compliance with New Zealand equivalents to international Financial Reporting Standards (NZ-IFRS) in its full financial statements.

The summary financial statements cannot be expected to provide as complete an understanding as provided by the full financial statements of the financial performance, financial position, and cash flows of the Rūnanga.

Full financial statements can be obtained upon request from Te Rūnanga o Ngāti Awa, PO Box 76, Whakatāne or email runanga@ngatiawa.iwi.nz

The full financial statements have been audited and an unqualified audit opinion has been issued, dated 24 September 2010.

Auditors' Report

To the members of Te Rūnanga o Ngāti Awa

We have audited the summary financial statements of the Rūnanga and Group for the year ended 30 June 2010 on pages 13 to 17.

Representatives' responsibilities

The Representatives are responsible for the preparation and presentation of the summary financial statements in accordance with generally accepted accounting practice in New Zealand.

Auditors' responsibilities

We are responsible for expressing to you an independent opinion on the summary financial statements presented by the Representatives.

Basis of opinion

Our audit was conducted in accordance with New Zealand Auditing Standards and involved carrying out procedures to ensure the summary financial statements are consistent with the full financial statements on which the summary financial statements are based. We also evaluated the overall adequacy of the presentation of information in the summary financial statements against the requirements of Financial Reporting Standard No.43 - Summary Financial Statements.

We have no relationship with or interests in the Rūnanga or any of its subsidiaries other than in our capacity as auditors and providers of other assurance services.

Unqualified opinion

In our opinion:

- (a) the amounts set out in the summary financial statements have been correctly extracted from the full financial statements of the Rūnanga and Group and are consistent in all material respects with the full financial statements, upon which we expressed an unqualified audit opinion in our report to the members dated 24 September 2010; and
- (b) the information reported in the summary financial statements complies with Financial Reporting Standard No.43 - Summary Financial Statements.

We completed our work for the purposes of this report on 24 September 2010 and our unqualified opinion is expressed as at that date.

BOARD OF REPRESENTATIVES' FEES AND OTHER PAYMENTS

For the year ended 30 June 2010 (in New Zealand dollars)

Payments to Board Members under the Rūnanga Charter

Under the Rūnanga Charter clause 18.1(c), there is a provision for professional fees that can be paid to Board Members. During the year ended 30 June 2010 the following board attendance meeting fees, other meeting fees and professional fees were paid to Board Members:

Board Member	Meetings Attended 2010	Rūnanga Meeting Fees \$	Other Trustee/ Director/Committee Meeting Fees \$	Other Payments \$	Total \$
Mr B Aranga	9	2,835	-	-	2,835
Mr M Aranga	11	3,465	-	-	3,465
Mr W Araroa	9	2,835	1,200	-	4,035
Ms N Brown	11	3,465	-	-	3,465
Ms M Dodd	8	2,520	5,525	-	8,045
Mr C Elliott	11	3,465	4,275	-	7,740
Mr J Harawira	8	2,520	-	-	2,520
Ms M Hepi	11	3,465	-	-	3,465
Mr P Hudson	6	1,890	750	-	2,640
Mr A Jaram	10	3,150	-	31,910	35,060
Ms E Ratahi-Pryor	7	2,205	22,500	-	24,705
Mr S Mansell	11	3,465	-	-	3,465
Mr J Mason	11	3,465	22,500	39,375	65,340
Mr TK Merito	10	45,000	-	-	45,000
Mr P Ngaropō	10	13,625	1,250	79,399	94,274

Mr B Simpson	11	3,465	-	-	3,465
Ms H Sisley	11	3,465	675	-	4,140
Ms M Sisley	9	2,835	-	-	2,835
Mr H Stipich	9	2,835	-	-	2,835
Mr R Williams	7	2,205	-	-	2,205
		118,160	63,850	281,432	463,442

Employee Remuneration

Payments to Employees to be Disclosed under the Rūnanga Charter

Under the Rūnanga Charter clause 11.3, there is a requirement for the Annual Report to comply with section 211 of the Companies Act 1993 but excluding information required by section 211(1)(g) where the Rūnanga so decides pursuant to clause 11.6 (Protection of Sensitive Information).

During the year ended 30 June 2010 the number of employees or former employees, not being governors that received remuneration and any other benefits in their capacity as employees where the value exceeded \$100,000 per annum were:

	Number of Employees
\$100,000 - \$110,000	1
\$140,000 - \$150,000	1

Ngāti Awa Group Holdings Limited and Ngāti Awa Asset Holdings Limited, Executive Chairman's Report

Tēnā tātou katoa

As Chairman, I am pleased to present the results of Ngāti Awa Group Holdings Limited (NAGHL) and Ngāti Awa Assets Holdings Limited (NAAHL) for the 2009-2010 financial year on behalf of our shareholder Te Rūnanga o Ngāti Awa.

Flood Damage at Ngāti Awa Farm

June was a tough month for Ngāti Awa farm. Two floods struck in quick succession wiping out every flood gate, two of three bridges estimated at over \$150,000 each and damaging pasture and high country.

However two reports commissioned earlier, a Land Use Capability Study and Maraetotara Stream Riparian Management Plan, have provided critical information to help make decisions about what flood recovery investments need to be made, and where on the farm to invest in different land uses. So far a wide variety and range of land uses are being considered but it will take some time to make any particular changes to the current operation.

In the meantime farm work continues as normal with additional predator control works being contributed by qualified and experienced Ngāti Awa contractors.

FINANCIAL RESULTS

The combined Ngāti Awa Group Holdings Limited and Ngāti Awa Asset Holdings Limited's financial results for the year ended 30 June 2010 was a net surplus after tax of \$5.5 million. This is a significant improvement compared to the previous year's net deficit after tax of \$6.2 million. In contrast to 2009, reductions in valuations (required under the accounting standards) due to unfavourable economic conditions were reduced. The asset write ups/(downs) that are included in the Income Statement as non-cash adjustments are set out in the table below:

Asset	Revaluation Amount
Carbon Credits – valued at November 2009	3,728,000
Carbon Credits – revaluation at 30 June 2010	(191,000)
Investments in Shares via Unit Trusts	840,000
Forestry Land	(496,000)
Investment Properties	(73,000)
Livestock	(30,000)
Manu Hou Investments	28,000
Total	\$3,806,000

There was a significant "one off" gain from recognising \$3.7 million of income relating to carbon credits allocated to forestry land due to the enactment of the Emission Trading Scheme.

Equity markets have remained volatile over the year, however a gain of \$0.84 million was achieved. The Board redeemed the investment in the Alliance Bernstein global equity funds on 30 April 2010 as the European sovereign debt crisis appeared to be escalating. This realised a gain for the year of \$0.5 million but an overall loss of \$1.5 million since the Alliance Bernstein investment was made. Remaining equity exposure is \$5 million spread over New Zealand and Australian shares via the Brook Alpha Fund.

The reduction in forestry land valuation relates to a reduction in the rental income from this land and is in line with management expectations.

The valuations of other major assets, Ngākauroa Dairy Farm joint venture, ACE Fish quota, Aotearoa Fisheries Limited Shares and Birnie Capital Property Partnership have not changed from 2009.

The valuation of the Bond Portfolio increased \$0.5 million, however the movement in this asset is recorded in an asset revaluation reserve (i.e. direct in equity) rather than the income.

Fixed interest revenue earned of \$1.3 million was similar to the prior year of \$1.5 million despite reductions in interest rates. This is due to the performance of the \$10 million bonds portfolio which returned 7.34% (gross). This portfolio will provide some protection against low interest rates in the short term.

Cash flows remained strong in 2010 with positive operating revenue inflows exceeding \$4.4 million (2009: \$4.4 million).

An investment of \$3.5 million was made in Manu Hou Limited Partnership during the year. Manu Hou has been established in conjunction with other Ngāti Awa trusts to invest \$5 million into the Direct Capital IV Fund which is a vehicle for direct equity investments into private companies. This investment has a capital growth objective and has a time frame of 10 years. Direct Capital IV Fund had made two investments by 30 June 2010 and Manu Hou has recorded a corresponding investment gain of \$28,000.

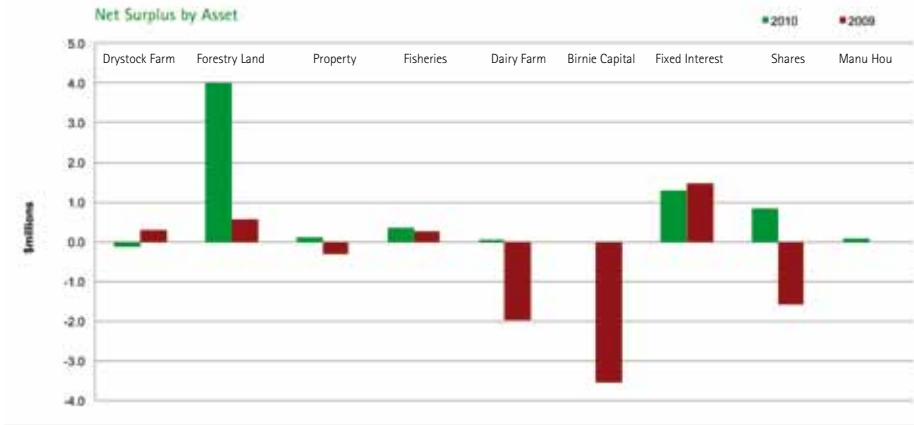

Income from the Ngākauroa Dairy Farm Joint Venture was 22% above budget. A Dairy herd of 496 units was purchased at a cost of \$0.7 million. The farm now has a lower order share milker and will have improved long term profitability.

The total combined assets of the commercial operations (including minority interests) has increased \$13 million to \$89 million (2009: \$76 million). This increase is due to recognition of Carbon Credit intangible asset, share and bond investment increases and livestock and plant purchases on the dairy farm (financed from borrowing) and inclusion of minority interest funds contributed to Manu Hou Limited Partnership. Also the \$5 million cash received from the Bonisch Road settlement was transferred from Te Rūnanga o Ngāti Awa.

Return on total assets for 2010 is 7% (2009: -8%). This return has been bolstered by the "one off" recognition of \$3.5 million (net) of carbon credit revenue. The return is 3% if carbon credit revenue is ignored.

The graphs below quantify by asset the net surplus/deficit and return on investment. The direct costs for revenue generating activities have remained consistent with last year.

Note – The Drystock farm land is owned by Te Runanga o Ngati Awa and leased to Ngati Awa Group Holdings Limited. If the value of the farm land was included then the return on investment for the Drystock farm would be -1.17% (2009: 3.8%).

GOVERNANCE

In accordance with the Charter, one third of directors must retire each year. This year, Joe Mason and Taari Nicholas were reappointed as directors by the Rūnanga for a further three year term. Throughout the year we also established an investment sub-committee to screen and assess new investment opportunities as they arise in accordance with the boards strategic investment objectives.

FUTURE DIRECTIONS

While we hope that the worst of the global economic recession is behind us, Ngāti Awa Group Holdings Limited will continue to take a strategic and measured approach to new investments; however we will also continue to explore new options for the development of our existing asset base to its fullest potential.

We have continued on from last year in fostering and leading strategic alliances with our own Ngāti Awa trusts and incorporations as well as other iwi particularly in the industries of fishing, forestry and agriculture.

Finally, I would like to acknowledge the effort of Tiaki Hunia, General Manager and that of the Ngāti Awa farm committee, my fellow Ngāti Awa Group Holdings Limited Directors, the Rūnanga Chairman and hapū representatives, the CEO and staff of the Rūnanga, for their commitment and support. It has been a privilege to work with you, and I look forward to next year as we continually strive to serve our iwi to the best of our ability.

Kia ora tātou katoa

Sir Harawira Gardiner

Executive Chairman

Ngāti Awa Group Holdings Limited

Te Tirohanga Whakamuri

Our Story, Looking Back

Te Tirohanga Whakamua

Our Future, Looking Ahead

Turangawaewae

Cultural Identity & Connectivity

Ngāti Awa will have a living culture that is vibrant and where the iwi can have confidence and pride in being Ngāti Awa.

Our traditions, customs and language will be understood and practiced in our homes, schools and communities, as well as on our marae.

Our marae will be dynamic, fully functioning, inclusive, sustainable places.

Our wharenui, Mātaatua, will be restored and we will celebrate our connections to each other and our pride as an iwi.

Mauri Ora

Resources, Independence, Sustainability

We will have access to, and control of, our customary resources and be able to exercise kaitiakitanga over sites and landscape features of significance to us, in perpetuity.

Custodiands of Pūtauaki maunga will be returned to Ngāti Awa.

We will become economically independent by achieving high levels of learning and skills and by having access to institutions that value and meet our needs.

We will have sufficient collective resources to create our own education, training and financial institutions if necessary to create a sustainable future and achieve our potential.

Toi Ora

Optimum Wellbeing

We will have access to health institutions that are multi-dimensional; caring for our physical, spiritual and cultural wellbeing.

Our homes, communities and marae will be smoke, drug and gang free.

Our kaumātua will be cared for by their whānau. Rangatahi will be empowered to reach their potential.

Homes will be safe and warm. Parents will have the skills, support and resources they need to raise their families.

Tū Pakari

Leadership & Hapū Unity

Our kaumātua will guide us on our journey; providing protection of our customs and traditions and mentoring younger generations.

Our leadership will be inspiring and inclusive.

Our hapū will be unified and strong.

We will be recognised wherever we go as Ngāti Awa; the iwi likened to the adze - so strong that we can loosen the sun.

DEVELOPMENT NGĀTI AWA

Tēnei te mihi atu ki a koutou, ngā uri whakaheke o Ngāti Awa, ngā kaipupuri i ngā tikanga o rātou mā. Tēnā koutou katoa.

Sadly this year we marked the passing of Patrick Hudson, Trustee of Development Ngāti Awa 2005 to 2010. Patrick provided a steady hand to the trust and was passionate about developing initiatives that would make a difference on the ground for the most vulnerable of Ngāti Awa.

Patrick's guidance to staff was always practical and delivered in a quiet but direct way. He will be sadly missed by us all.

STAFF MOVEMENTS

Edwina Merito (Senior Advisor) made a significant contribution to Ngāti Awa development prior to her departure in May 2010; in particular, Ko Ngāti Awa te Toki and Te Ara Poutama o Ngāti Awa.

Kemi Matarae-Riritahi (Poutakawaenga) departed Development Ngāti Awa in 2010 to undertake further studies. Kemi contributed to the delivery of the Ngāti Awa Marae Toolkit and we wish her well with her studies.

STRATEGIC FOCUS

The long-term strategic objectives Development Ngāti Awa focuses on are:

- Language and Culture: Strengthening Ngāti Awatanga
- Hapū and Iwi Development: Improving whānau, marae, hapū and iwi capability
- Education and Training: Supporting educational achievement all at levels
- Ngāti Awa Health and Wellbeing: safe, healthy and secure environments for whānau
- Organisational Development: Communicating with Ngāti Awa members, hapū and marae.

ACHIEVEMENTS

A significant milestone was achieved with the launch of 'Ko Ngāti Awa te Toki', our collective aspirations for 2050. During March and April 2010, Te Rūnanga o Ngāti Awa released the DVD 'Ko Ngāti Awa Te Toki' and website www.ngatiawa.com. The website went live on Waitangi Day 2010 and the DVD was launched at a special Ngāti Awa concert held at Te Whare o Toroa Marae.

The success of the launch of Ko Ngāti Awa Te Toki was supported by an intensive campaign which was covered by local and international media alike and featured in the Māori Television rangatahi programme HAA. About 800 people attended the concert which was headlined by local Ngāti Awa soulstress Maisey Rika and international hip-hop act, the Kumpnee, along with a whole host of amazing Ngāti Awa talent.

Other major developments in 2009/2010 also include the development of Te Ara Poutama o Ngāti Awa – the strategic framework for Te Rūnanga o Ngāti Awa group. Building on 'Ko Ngāti Awa te Toki – the collection of iwi aspirations', Te Ara Poutama o Ngāti Awa provides direction and clear goals that Te Rūnanga o Ngāti Awa group will work towards.

Development Ngāti Awa continued to deliver marae and hapū focussed initiatives:

- Information and training workshops.
- Ngāti Awa Marae Toolkit (17 marae insurance assessments completed, 16 marae/hapū strategic plans developed, 13 fire safety marae reports completed).
- Supporting a range of hapū development projects.

The Essential Housing Repairs programme continued to be delivered with 27 homes being repaired with a total value of \$543,550.49.

279 Te Rūnanga o Ngāti Awa Tertiary Grants and 8 Te Rūnanga o Ngāti Awa Scholarships were also distributed to students this year. The Tertiary Grants ceremony was held at Te Paroa Marae.

The Co-Production initiative which commenced in 2007, in collaboration with Te Puni Kōkiri, has now been concluded. All the milestones have been achieved and an evaluation report has been completed.

STRATEGY AND POLICY FOCUS

In 2009 and 2010, the key focus for Development Ngāti Awa was continuing to build the strategic and policy capability of Development Ngāti Awa, as essential precursors to achieving improved social, cultural and economic outcomes for ngā uri o ngā hapū o Ngāti Awa.

In part, this required making a clear differentiation between the policy and strategic functions of Development Ngāti Awa and the service delivery activities. It is expected that this will better streamline resources and outcomes; policy and strategies will drive the services delivered as opposed to government funding streams or solely government initiated policies and strategies.

The task ahead is for Te Rūnanga o Ngāti Awa group is to rise to the challenges of leading and implementing Te Ara Poutama o Ngāti Awa. Te Rūnanga o Ngāti Awa will need to work with partners and other Ngāti Awa groups to ensure all of our efforts are contributing and striving towards Ko Ngāti Awa te Toki in a consistent and transparent way.

Development Ngāti Awa

ENVIRONMENT NGĀTI AWA

STRATEGIC FOCUS

All things exist in time and space. For Ngāti Awa our place is here and our time is now. This is our place in the world and we are its kaitiaki.

Environment Ngāti Awa strives to support the iwi in the active exercise of kaitiakitanga. Here are some of the outstanding mauri enhancement and kaitiakitanga works undertaken by our people this year.

TE OHU MO Papatūānuku – KOPEOPEO CANAL BIOREMEDIATION TRIALS PROJECT

Te Ohu Mo Papatūānuku is a project that tests whether plants can de-contaminate sites, soils and sediments.

Since October 2009 Te Rūnanga o Ngāti Awa has been collaborating with Sawmill Workers Against Poisons (SWAP), the Bay of Plenty Regional Council, Whakatāne Mill (formerly Carter Holt Harvey Whakatāne), scientists from the Universities of Waikato and Massey, and graduates from Te Whare Wānanga o Awanuiārangī in a trial project to test bioremediation methods. If the methods are proven to work, then they will be identified in Ngāti Awa planning instruments and promoted for use in a campaign to clean up of every contaminated site in our rohe.

Now well underway, the project is receiving national and international attention. In August a delegation from the Chinese Ministry of Environmental Protection visited the project site. The project has been funded by the Health Research Council of New Zealand.

Tarawera River Memorandum of Understanding and Mauri Enhancement

During the Tasman Mills consents process, Ngāti Awa sought to establish a forum to focus on mauri enhancement of the Tarawera River and environs. The 'Tangata Whenua' forum was supported by Tūwharetoa (BOP), Ngāti Rangitihi, Norske Skog and Carter Holt Harvey and the initiative was formalised at a signing ceremony earlier this year.

The memorandum requires iwi and the companies to meet on a regular basis to discuss consent compliances, operational advances to minimise adverse environmental effects and to identify mauri enhancement projects. The latest proposal to operate a catch, carry, grow and release programme for long fin tuna into eastern Bay of Plenty rivers is being researched at present.

Mauri Enhancement Champions

Environment Ngāti Awa acknowledges all the Mauri Enhancement Champions who have inspired others to participate in kaitiakitanga activities.

Carrying on from his stint at Te Mapou last year, Miro Araroa has reached across the river to help Ruaihona Champions Monica Maniapoto and Helen Sisley to clear, prepare and plant the Hekerangi River banks.

Largely sponsored by TrustPower Limited with some funding from Environment Bay of Plenty for the Ruaihona river bank, the Mauri Enhancement Projects have seen river banks cleared and close to 6,000 trees planted to protect and beautify the Rangitaiki River.

NGĀTI AWA RESEARCH AND ARCHIVES

Tēnā tātau katoa. Ko tēnei hoki te mihi maiohā ki a tātau kua whai wāhi mai ki te āta titiro ki tēnei rīpoata. Ko te tūmanako mā ēnei kupu maramara nei ka puta he māramatanga mō te āhuatanga o tēnei rōpū a tātau me ngā mahi mō te tau kua pahuri nei.

Ngāti Awa Research and Archives Trust continues its work as the primary repository of historical, cultural and customary information and records regarding Ngāti Awa.

Established in 1994 after more than two decades of concentrated research for the Ngāti Awa Raupatu, the Trust offers students, schools, researchers and whānau access to important tribal information.

PROJECTS

Ngāti Awa Mataitai Reserve Research

This year Ngāti Awa Research and Archives interviewed a number of people who have significant knowledge of our customary kaimoana gathering practices. Their interviews have been included in a final report that will be used by the Ngāti Awa Customary Fisheries Authority for their application for a Mataitai Reserve.

This research documents important information about our customary practices which will be held in archive for future generations.

We are very grateful for the support and information that has been given freely to support this kaupapa.

Life and Living in Advance Age Cohort project (LILAC)

This is a study, in association with The University of Auckland, of those of advanced age living in the Bay of Plenty and Lakes District Health Board areas. The aims of the study are to:

- Establish those things that make for successful ageing.
- Establish the pathways in advanced age.
- Understand the comparative importance of health, frailty, cultural, social and economic factors to relevant outcomes.

Ngāti Awa Research and Archives are interviewing both Māori (80 to 90 years) and non-Māori (85 years of age) who reside in Ohope, Whakatāne, Waimana, Ruātoki, Taneatua, Te Teko, Onepū, Kawerau, Thornton and Matata.

Little is known about how and why people live a long life. This study honours the contribution of people of advanced age to society and records their experiences of a long life.

There are fewer than 300 elders in this area that qualify for this study. We would like to talk to them. Their experiences and stories can help the different agencies plan for the future health of our elders.

Waahi Tapu o Tarawera

Māori Investments Limited commissioned Ngāti Awa Research and Archives to assist MIL Directors, Te Rau Chapman and Patio (Graham) Te Rire, provide a report on three specific land sites within the Tarawera Forest to assist in the protection of these areas.

The report contains the location and histories of these land marks, Ōtūhangū, Te Haehaenga and Maunga Whakamana, and more importantly, examines the reasons why these sites are significant to whānau, hapū and iwi.

A literature review was undertaken and interviews were conducted with people who had knowledge of the three sites. Much of the primary information was gleaned from the Māori Land Court Minute Books. A copy of the Report can be obtained from Māori Investments Limited.

Maori Investments Limited (MIL) – Unidentified/Unclaimed Shares

As at 2009 there were approximately 5,422 shareholders on the MIL Register. 3300 or 61% were classified as unidentified or unclaimed. These shares are valued at \$14 million.

Ngāti Awa Research and Archives was commissioned by MIL to locate the whakapapa of their top 100 shareholders. These shareholders date back to the 1880s and in some cases involve up to five generations.

We were successful in identifying the whakapapa for 84 of the top 100 unknown shareholders and 66 of the minor shareholders. The value of this is approximately just under \$2 million. We were able to provide to MIL the details of at least one key whānau member for each of those shareholders to enable them to start the process of contact and succession.

Ngāti Awa Awards – 28 November 2009

The Ngāti Awa Awards system recognises and celebrates the long-term contributions made by ngā uri o ngā hapū of Ngāti Awa while they are still alive. For 2009, the Rangimarie group was awarded the collective award 'He Hei Mapuna' as a collective tribute for their services and support to Ngāti Awa in pohiri, kapa haka and wero. They accepted their award with emotion and appreciation that their efforts had been recognised by their people.

NGĀTI AWA MEMBERSHIP

As of June 2010 there were around 19,000 registered members. Having an up-to-date Register helps the Rūnanga communicate with our members more effectively. This year, the Ngāti Awa Register was made available online, making it easier and more accessible for Ngāti Awa members to register or update their details.

Go to www.ngatiawa.iwi.nz to register or update your details.

Ngāti Awa Research and Archives

NGĀTI AWA CUSTOMARY FISHERIES AUTHORITY

PURPOSE

The purpose of Te Rūnanga o Ngāti Awa Customary Fisheries Authority is to engage in the sustainable management of our customary fisheries.

ACHIEVEMENTS

Pataka

The Pataka kai has proved to be a very successful initiative. Over a twelve month period, we have distributed over one tonne of fish to Ngāti Awa marae to support tangihanga. If marae are having other hui fish can be purchased directly from AFL at wholesale prices. For any inquiries about this, hapū can contact Charlie Bluett at the Rūnanga office (07 307 0760).

Mataitai

The Authority is preparing an application to establish a Mataitai Reserve within the current Rohe Moana. A Mataitai Reserve allows the Authority to implement customary regulations. The introduction of any new regulation is subject to a public consultation process.

The only outstanding issue is the coexistence of limited commercial fishing within the proposed Mataitai area. Under current customary regulations, once approved, all commercial activities cease however a process exists for re-introduction of commercial activities (subject to approval by the Minister of Fisheries).

Rohe Moana Research Project

Late last year we were successful in securing funding from the Ministry of Fisheries to undertake a fish and shellfish survey within key customary harvest sites within the Rohe Moana and more particularly the proposed Mataitai Reserve.

The secondary component of the project was to under a cultural harvest survey by interviewing known Ngāti Awa divers and fishermen. This work was undertaken by Ngāti Awa Research and Archives Trust. The information gathered is of immense value; we now know the state of our resources and are in a better position to make decisions around how we should manage these species going forward.

National Eel Workshop

The Ngāti Awa Customary Fisheries Authority took the lead role in calling and hosting a national eel workshop in conjunction with Te Whare Wānanga o Awanuiārangi and Mai Ngā Kuri a Whareki ki Tihirau Iwi fisheries forum.

The Hui was well attended by all those with an interest in eels including iwi representation from around the motu, scientists, commercial and recreational users and government departments.

Ngāti Awa Customary Fisheries Authority Members of Joe Mason, Helen Sisley, Te Kei Merito, Brian Simpson, Bill Kerrison, Pitau Williams, Charlie Bluett and Vicky George.

John Hohapata-Oke

Chairman

Ngāti Awa Customary Fisheries Authority

MAIMAI AROHA

Patrick Hudson

22 October 1946 – 12 May 2010

Haere rā e hika, whakarere iho, mā te roimata, kau e riringi.

Patrick Hudson was born 22 October 1946 in Whakatāne to Henry Hudson and Wiripene Merito. He grew up at the whānau homestead in Wairaka and was a mokopuna of Merito Hetaraka and Peti Horomona. Merito was a prominent leader of Ngāti Hokopū and Ngāti Pūkeko hapū and Ngāti Awa iwi.

Pat attended St Josephs Primary School and Whakatāne High School. He was an all round sportsman who was very competitive and did not like to lose. He played softball in Rotorua, gaining both his BOP and NZ Softball umpiring badges. Slowing down he played outdoor bowls, darts and other various activities.

Pat married Amy Matehaere Thrupp in Whakatāne on 9 September 1967 when he was employed as a Millhand at Tasman and Whakatāne Board Mills. Shortly after, they moved to Rotorua where he gained employment with NZ Post office as an adult apprentice for the Telecommunications department. He became a qualified technician, a supervisor then finally a manager. Pat and Amy eventually returned home in 1982 when he transferred as manager for the Whakatāne Telecommunications department. Upon finishing his government service he recognised a need to work for his whānau, hapū and iwi.

Over the years both Pat and his wife Amy provided support and guidance whenever it was needed to whānau and the Wairaka community. Pat was a passionate member of Wairaka Kohanga Reo, Chairperson of Wairaka Kokiri Trust and was dedicated in ensuring their futures. He was also a loyal Trustee for Te Puna Ora o Mātaatua where he made a significant contribution to the improvement of Maori Health services. As a long standing representative of his hapū on Te Rūnanga o Ngāti Awa he was one of the many devoted individuals who worked tirelessly towards the settlement of Ngāti Awa Raupatu claims. Pat was well known for his humility, aroha and unflagging efforts to uphold the mana of his beloved Wairaka Marae until his retirement as Chairman in December 2009.

Despite his illness during the past year Pat continued to support both his marae and the Rūnanga to the very end. Pat passed away peacefully at his home surrounded by his loving family and hapū at the age of 63 years and is buried at Kapūterangi urupa in Whakatāne.

Pat will be remembered as a gentleman, a man of great integrity who committed his time with the people, for the people and to serve the people. He is dearly missed by his wife Amy, their children Patricia, Fredrick, William and Terrance and the many wonderful mokopuna and tuarua of whom he was very proud of and loved.

The loss of a branch doesn't destroy a tree whose trunk consists of heart wood.

Whaia atu te Kahui Ariki, te Kahurangi i mua i a koe, haere, moe mai i roto i te Ariki

Mātaatua Whareniui centre, Te Rau o Ngāti Awa (wharekai) left, meeting space right.

MĀTAATUA WHARENIUI

After many years of planning and development the Rūnanga has started the final phase of the rebuilding of Mātaatua Whareniui.

Mātaatua was originally built in Whakatāne by Ngāti Awa under the oversight of Apanui Te Hamaiwaho and his son Wepiha Apanui and was opened in 1875. In 1878 the Whareniui was dismantled and shipped to Sydney by the Government to be exhibited at the Sydney International Exhibition 1879 and then at the Melbourne International Exhibition. It was then sent to London where it was erected in the gardens of the Victoria and Albert Museum before being stored. In the 1920s the Whareniui was returned to New Zealand to the Otago Museum where it was put on display until finally being returned to Ngāti Awa as part of our Treaty settlement in 1996.

Since that time the Rūnanga has been working to restore the carvings which were damaged on its journey and recreate all the tukutuku panels which had all been lost. In 2006 the Rūnanga agreed to rebuild Mātaatua as a living marae at the old Telecom site at Wairaka.

This year the Rūnanga undertook a review of the process and adopted a new design. The design reflects the importance of the Whareniui as the focus for the site. Architect Desmond Freeman of DWP says "The inspiration for the design of the site was drawn from the appropriately dominant role of the Mātaatua Whareniui itself. The adjacent structures and landscape have been designed to compliment rather than compete with the Whareniui in terms of form, positioning and architectural style. The contemporary shapes and materials employed in those buildings respect the traditional style of the Whareniui while emphasising their contemporary function and the future of the Ngāti Awa."

There are two other buildings on site; the wharekai (called Te Aroha o Ngāti Awa) and a multipurpose building which can be used to display information about the Mātaatua, arts and culture exhibitions or meetings. "It was important to ensure that the site was flexible enough to accommodate a wide

range of hui, conferences, visitor experiences and events," says Rūnanga Chief Executive Jeremy Gardiner. "This design caters for the biggest hui we have as well as being able to accommodate smaller meetings."

Another aspect of the site is providing an experience for local, national and international visitors. Visitors will be able to come on site, learn about the story of the Mātaatua and experience the Whareniui itself.

Resource consent has been given for the project and building is expected to begin during October 2010 with a target opening date of mid April 2011. Te Rūnanga o Ngāti Awa Whakaruruhau Sir Sidney Mead (Hirini Moko) is looking forward to the opening of the Whareniui. "Mātaatua has been away from home for a long time. It will be good to see it finally standing at Whakatāne again."

Preparations are also getting underway for opening of the Whareniui. A haka party of 300 is the target and new haka are being developed for the occasion. The Rūnanga will be working with all the hapū to ensure that every group can contribute to the opening.

RAPUA E TE IWI, NGĀ KAI O NGĀ ATUA

PEOPLE SEARCH FOR THE FOOD OF THE GODS

REKA the marae based project aimed at developing sustainability within Ngāti Awa marae was launched in a pilot series of weekend wānanga at Tuteao and Rangataua marae from August 2009 to January 2010.

Raised kitchen garden beds, a herb garden, kitchen orchard, compost system, fertilization and a propagation area were established at each marae under the direction of expert tutors of permaculture. The key principles of permaculture focus on caring for the earth, caring for people and sharing resources and the workshops revived fond memories in many pakeke and kaumātua of their parents, kuia and koroua who spent many hours working in their maara kai, feeding and taking care of whānau, friends and their marae.

Ngā Maihi and Ngāti Rangataua were encouraged back to their marae for the weekend wānanga to learn a combination of both old and new techniques to grow, prepare, cook and eat kai. Some stayed the weekend at the marae and others popped in and out throughout the wānanga. Good fun, lots of laughs while learning was rampant throughout and the hapū dynamics and energy was highly charged and interesting to be part of.

Menus offered lots of fresh fruit, vegetables, healthy snacks, wholesome soups and tasty stews, fish, and or kai moana when available were also a delicious treat. "Marae made" hummus, guacamole and fresh salads from the marae gardens offered new tastes and flavours for both rangatahi and pakeke. Burgers, wedges and gourmet pizzas prepared and cooked by some of the tamariki and rangatahi were a welcome treat and offered new learning to the hapū about how to cook tastier, healthier kai both at the marae and at home. The permaculture workshops were interactive and energised and kept the hapū thinking and zumba, jump jam and marae aerobics sessions offered the physical balance to keep the hapū busy. The tamariki enjoyed the assortment of games and activities offered as well as helping in the gardens and kitchens.

REKA has been developed further since the pilot to include more concepts and incentives to encourage more rangatahi and young families to attend the next REKA wānanga that will be held in four more Ngāti Awa marae this spring and summer with the first scheduled to start at Rewatu and Iramoko marae starting soon.

REKA Project Manager Mate Heitia from Ngāti Rangataua will keep participating hapū informed of dates and times of wānanga. She can be contacted on 021 1222 104 or mate.heitia@vodafone.co.nz for any queries.

TE RŪNANGA O NGĀTI AWA HAKINAKINA GRANTS 2010

Te Rūnanga o Ngāti Awa recognises that sporting achievement at a national or international level enhances an individual's ability to participate in education, the work force and the community.

Te Rūnanga o Ngāti Awa Hakinakina Grants are awarded to registered Ngāti Awa members who are a national or international representative of a Sport and Recreation Council (SPARC) recognised sport. The grants are valued at up to \$500.00 per annum per applicant and may be awarded for travel costs, entry fees or equipment.

This year Te Rūnanga o Ngāti Awa awarded ten Ngāti Awa Hakinakina Grants. The recipients are diverse in their chosen sport ranging from volleyball, touch, rugby and waka ama. We congratulate all these recipients and wish them well for the future.

2010 RECIPIENTS

- Ruahei Demant, Ngāti Pūkeko
- Cassidy Katu, Te Pahipoto
- Kiritapu Demant, Ngāti Pūkeko
- Yasmeeen Ngaropo, Te Tawera
- Rachel Wikeepa, Ngāti Hāmua
- Cameron Rio-Kumeroa, Ngāti Pūkeko
- Maia Westrupp, Ngāti Hikakino
- Hemi Wahapango, Ngāi Taiwhakaea
- Awhina Savage, Te Pahipoto
- Clayton Ngawharau, Ngāti Pūkeko

ELIGIBILITY

- Be an individual who is registered with Te Rūnanga o Ngāti Awa as a member of Ngāti Awa.
- Be representing either a national or international sport as recognized by SPARC (www.sparc.org.nz).
- Be engaged with an participating in hapū, marae or iwi activities and events.
- Complete and submit the application form and all required information and documentation PRIOR to any travel or sporting event you are applying under.

Cassidy Katu, Pahipoto

NGĀTI AWA TERTIARY EDUCATION GRANTS AND SCHOLARSHIPS

Te Rūnanga o Ngāti Awa is committed to supporting lifelong learning and excellence in education. We celebrate tertiary student achievements by offering the Tertiary Grants, Scholarships, Internships and hosting students and their whānau at the annual Te Rūnanga o Ngāti Awa Tertiary Presentation day.

Education Grants, Scholarships and internships form the basis for Ngāti Awa educational advancement and to reconnect ngā uri o Ngāti Awa to te rohe o Ngāti Awa and Te Rūnanga o Ngāti Awa. 279 education grants and 8 scholarships were awarded in 2010.

Successful scholarship recipients are given financial assistance towards their studies for up to two years. Applicants are required to submit an application annually which demonstrates academic excellence and continued engagement with their marae, hapū and iwi.

Education Grants are tiered, differentiating between levels of study and full-time or part-time study which determines the grant amount that the recipients received.

PRESENTATION DAY

The Presentation day is an opportunity to celebrate student educational achievements and to also reconnect students with their iwi, hapū and whānau, and also each other. It is also an opportunity to update students on upcoming events and to discuss current issues.

For some students and their whānau, this maybe one of their first opportunities to come together as Ngāti Awa so it is an important celebration of Ngāti Awatanga as well.

Scholarship 2010 recipients

NGĀTI AWA SCHOLARSHIP RECIPIENTS 2010

Nimbus Staniland, Ngā Maihi, Conjoint degree in Arts and Business
Reina Tua, Ngāi Tamaoki, Bachelor of Nursing
Kura Paul-Burke, Ngāi Tamapare, Masters of Indigenous Studies

TE WHARE WĀNANGA O AWANUIĀRANGI

This report (1 June 2009 to 31 July 2010) covers the second semester of the 2009 Academic Year and the first semester of the 2010 Academic Year of Te Whare Wānanga o Awanuiārangī.

During this period Distinguished Professor Graham Hingangaroa Smith continued his tenure as Chief Executive Officer of Te Whare Wānanga o Awanuiārangī, Distinguished Professor Sir Sidney Mead (Hirini Moko) as Chair of the Council and Sir Harawira Gardiner as Deputy Chair.

The six representatives appointed to Wānanga Council by Te Rūnanga o Ngāti Awa are Te Kei Merito, the Chair of Te Rūnanga o Ngāti Awa, Distinguished Professor Sir Sidney Mead, Sir Harawira Gardiner, Adjunct Professor Hohepa Mason, Judge Layne Harvey and Materoa Dodd. They sit in the Council with current Councillors that include Makuini Hohapata, Mereana Coleman, and Niels Sunde (staff reps), Waaka Vercoe, Ms Adrienne von Tunzelmann, Ms Terri Eggleton and Mrs Te Iria Whiu representing the Ministry of Education, Mayor Colin Holmes (District Council), Aubrey Temara and Peter McLay (Co-opted by Council), Distinguished Professor Graham Hingangaroa Smith (CEO). Michael Katipa (Trade Union) resigned during this period.

Te Whare Wānanga o Awanuiārangī is very fortunate to have a hard-working team with experience, individual talents and on-going enthusiasm for the Te Whare Wānanga o Awanuiārangī. The result is that the Wānanga has made considerable progress academically as well as financially. The Wānanga now is in a better financial position than previously.

The Graduation ceremony held at the Whakatāne War Memorial Hall was larger than last year and again was very successful. The ceremony was preceded by a procession through the business area of town on Saturday 22 May 2010. This year's special guest was the Hon Anne Tolley, Minister of Education.

Posthumous qualifications were awarded for the late Kaurinui Wiremu, Wiremu Kingi and Aubrey Tawhai. This was the first time Te Whare Wānanga o Awanuiārangī has awarded qualifications posthumously.

All told, the year ended on a positive note Te Whare Wānanga o Awanuiārangī was moving forward and holding its own in the Tertiary Sector of the country.

TE REO IRIRANGI O TE MĀNUKA TŪTAHI TRUST

I te tuatahi ka huri ki o tātau tini aitua. Nā te kitenga atu ka titiro kua ngaro ngā waha kōrero, ngā kaihautu o ngā marae maha, kua whakangaro atu i te ara e kore e titiro whakamuri mai ano. No reira e ngā mate, haere. Haere atu koutou i te huanui, i te ara kua papatauria e te tapuwae kauika tangata. Takoto mai rā i te urunga e kore e nekehia, i te moenga e kore e hikitia. No reira e ngā mate, haere. Ka hoki mai ki a tātau te hunga ora, koutou hoki e kawe nei i ngā mahi taumaha a te iwi. Koinei te mihi nui ki a koutou, ā, ki a tātau hoki.

We are at an important stage of 2010 where the completion of projects started by Maketu John Simpson, draw to a closure. John was at the fore-front of Te Whakaruruhau o ngā Reo Irirangi and in radio generally and it is satisfying to note that those projects he started are nearly completed.

Te Reo Māori remains a major focus for the trustees and as in previous years the Station continues to exceed its contractual requirements for Te Mangai Paho. Staff continue to improve in the quality of te reo to air and the trustees support the continued development of staff.

Te Mānuka Tūtahi Productions – the video archiving arm of the Trust is working with Te Rūnanga o Ngāti Awa to document the progress of the Mātaatua whare Project. We are also intending to work with the Kāhui Kaumātua o Ngāti Awa to continue the archive interviews with our pakeke started in 2005.

The upgrade of our broadcast system from analogue to digital has been installed for nearly two years. To compliment this upgrade we had relocated to Ngāti Awa House thus strengthening the relationship between the Station and Te Rūnanga o Ngāti Awa. We moved to a newer version of Punga Net which is the central portal to all Iwi Radio Stations in the country. We have also just completed the upgrade of our broadcast automation system, re-developed our website, and now our focus is to upgrade our building and equipment on Koohi Point.

We have created a PD position which is working well. We have been fortunate enough to have one of our very talented staff members back from Taranaki where she was the PD at Korimako FM. Our Sales Representative is doing a 12 month crash course to assist with sales in a very difficult market.

Most staff are enrolled in further study including Humanities, Multi Media Graphics, Māori Studies and the Iwi radio training program units for sales and foundation skills in Radio.

As we look ahead – 2011 will see the relaunch of our second radio station.

MIHI WHAKAMUTUNGA

The trustees wish to record again their thanks to all those who have assisted in making the 2009 - 2010 year a success. Further gains and improvements over the coming few months will ensure a more certain future.

Ka nui te mihi ki a koutou, ngā karangaranga hapū o te iwi nei. Mā te atua koutou, tātau hoki e manaaki, e tiaki i ngā wā katoa.

William Pryor
Managing Trustee
Te Reo Irirangi o te Mānuka Tūtahi Trust

TE TOHU O TE ORA O NGĀTI AWA

Tēnā koutou katoa. Ngā kaikōrero o ngā hapū o Ngāti Awa Rūnanga whanui tonu. Me o tatou tini aitua ka haere i mua i a tātou, nō reira haere, haere ki te ara whanui. Anei te ripoata o Te Tohu o Te Ora o Ngāti Awa mō tēnei tau. Tēnā koutou, tēnā koutou, tēnā koutou katoa.

Our services have continued to grow and expand and this year we wish to highlight four areas that have contributed positively to whānau outcomes throughout the Bay of Plenty.

TE WAIPUNA ARIKI O MATANGIREIA

This year our early childhood centre, formally known as Te Ara Ki Tua, was relocated to Te Pahitaua into a new purpose-built facility Te Waipuna Ariki o Matangireia. We are now able to cater for 50 tamariki, an increase of 30 positions. This is an exciting opportunity for tamariki and their whānau to receive a comprehensive educational experience, supported by in-house health and social support.

ISO QUALITY ACCREDITATION

We were pleased to achieve ISO Standards for Community Diabetes, Tamariki Ora, Community Asthma Services and Alcohol and Drug programmes. We will be looking to expand the ISO Standard for the whole organisation.

SAWMILL WORKERS AGAINST POISONS (SWAP)

We were successful in gaining a new health service, not only for the men of the Whakatāne Sawmill who were exposed to multiple chemical exposure between the 1950's and 1980's, but for all sawmill workers covering the wider Bay of Plenty region. The Bay of Plenty Facilitation Service will provide a number of primary health services including access to free annual general practice visits. We also continue our support of SWAP through the employment of Joe Harawira.

NGĀTI AWA HAPU CHALLENGE

Congratulations to Ngā Maihi who won the Ngāti Awa Hapū Challenge for the second time since the inaugural challenge in 2005. Ngā Maihi as usual, holding off the challenges from other iwi for the top position, were just too good on the day.

We thank our koroua and kuia for their support and recognise the efforts of all those who contribute to the wellbeing of our whānau, hapū and iwi.

Enid Ratahi-Pryor
